**TO INCREASE  
THE OUTPUT**

INTERNATIONAL COMPANY AT COLE-  
MAN'S DOUBLE-SHIFT COAL MINE.

**EVIDENCES PROGRESS**

Increase Shipments to About 2,800 Tons  
Day, Will Give Employment to  
About Twice the Number of Men and  
About Doubles the Pay-Rate.

An announcement of the utmost  
importance to The Pass as a whole  
but more particularly to Coleman  
was made the first of the week by the  
International Coal & Coke company  
of Coleman. It was to this effect that  
the company had decided to double  
shift its mine at Coleman, which of  
course means all sorts of good things  
in connection with the business interests  
of the district.

Double shifting the mine means  
that the company will give employ-  
ment in future to very nearly double  
the number of men it has in the past  
and that there will be two ten hour  
leading shifts instead of one as in the past.

This in turn means that the  
output of the mine will be nearly or  
quite doubled and that the average  
daily output will be about 2,800 tons.

Probably the most important phase  
of the matter with the public generally,  
is found in the fact that the enlarging  
of the company's scheme of operations  
means the doubling of the population  
of Coleman in the very near future as the increased number  
of men required will bring the num-  
ber of men employed by the company  
up to between 500 and 600.

That innumerable families and pro-  
bably the estimate that it will have  
the effect of doubling Coleman's pop-  
ulation is not too great while the en-  
largement of the size of the monthly  
pay-roll will have as most important  
influence on business conditions in  
the district in every line.

The double shift went into effect  
Monday night. Already a large num-  
ber of extra men have been put to  
work and more will be added as  
fast as they can be procured. It is  
expected that the output of 2,800 tons  
a day which the company hopes and  
expects to maintain will be reached  
in a very short time.

The enlargement of the Interna-  
tional company's operations will have  
an important effect on the coal situa-  
tion of the west the coming winter,  
especially in our particular; that is  
that, taken in conjunction with the  
increase in the output of the West  
Canadian Collieries and the Canadian  
American companies, which, it is as-  
sumed, will be very considerable dur-  
ing the season, the C. P. R. will no  
longer be embarrassed for fuel sup-  
ply as has been the case many times in  
the past, there will be no occasion for  
conducting coal consigned to dealers  
for domestic consumption and the  
whole output of strictly domestic  
fuels will be available for that use.

The International company paid  
its second dividend the first of May,  
amounting \$56,000 distributed to stock  
holders this year. The third quarterly  
dividend of \$28,000 will be paid  
the first of August.

The stock of the company is now  
listed on the stock exchanges of Mon-  
treal, Toronto and Spokane. It was  
given its first official call on the  
Montreal exchange the 18th of the  
month.

President A. C. Flumerfelt and  
Vice President and General Manager H. N. Galler left Coleman Tuesday to  
attend a meeting of the company to be  
held at Spokane this week.

held at Spokane this week.

**FLUMERFELT TO OFFER PRIZES**

President A. C. Flumerfelt of the  
International Coal & Coke company  
of Coleman and the Alberta Coal  
Company of Lundbreck, visited the  
district this week. Mr. Flumerfelt who  
recently offered a number of prizes  
for essays on British Columbia and  
British Columbia resources and in-  
dustries, contemplates offering sim-  
ilar prizes for essays on Alberta, her  
resources and industries. He has  
not definitely formulated his plans  
with reference thereto but it is more  
than likely he will do so. Mr. Flumerfelt's  
purpose in offering prizes of the  
character mentioned is to promote  
the development and enhance  
the interests of the two provinces in  
which he is so extensively interested.  
His efforts in this behalf in British  
Columbia proved so successful and  
brought forth such an interesting and  
beneficial competition that his at-  
tention was directed to Alberta in the  
hope that similar results might be  
obtained.

**JUST MISSED THE CIRCUS**

The Pass was threatened seriously  
with a big circus Monday when for  
a little while the prospects looked  
good for a visit from what is prob-  
ably the biggest and best circus  
that comes to western Canada, the  
Norris and Rowe show. The man-  
agement did not like the idea of  
showing at Fernie on the lot that  
had been provided. Accordingly a  
man was sent here to see what could  
be done if a better site could not be  
secured in Fernie. Arrangements  
were practically completed when a  
wire was received that the Norris  
and Rowe had provided a suitable lot.  
The district looked so good to the  
agent sent here, G. Henry, that both  
he and his manager gave assurance  
the show would stay either here or at  
Blairmore next year. Several Frank  
people went to Fernie to see the  
show and were well repaid for  
the trip.

**COLEMAN NEWS**

D. J. McIntyre has resigned as  
overseer of the village, owing to his  
contemplated departure from town.  
Under a ruling of the attorney gen-  
eral, Coleman is now under the new  
village ordinances act and a council  
has been elected instead of an over-  
seer as heretofore. The election was  
held last Wednesday when Alex  
Cameron, Frank Graham and Frank  
Hughes were chosen to the council.  
W. Beaudiet was elected secre-  
tary-treasurer.

The Masonic service and at home,  
held the first of the week in com-  
memoration of the anniversary of St.  
John the Baptist, was a distinct suc-  
cess in every particular. The special  
sermon delivered by the Rev. Grant  
was a brilliant effort.

There is talk of an excursion being  
run to Coleman shortly by the Hun-  
dred Thousand Club of Calgary.

**NOTICE**

TAKE NOTICE that under the  
provisions of Section 17, 17. Re-  
lating to the sale of Canadian land  
by the Canadian Pacific Railway company  
as being the center of the dry belt.

Undoubtedly the southern part of  
the province is this year going to  
have its share of growth. Aent the  
subject of the automobile as a  
medium for making land sales, some  
of the most valuable land in the province  
in which the land agents are fre-  
quently victimized.

It is said that every fellow who comes to town from  
the country and wants to get a ride in an auto, hires up a land agent and  
asks to see some land. He gets his  
auto and some land and then is  
a plausible excuse for not buying.

One land agent said that after a time  
he was struck with the singular un-  
animity with which his applicants  
for land liked the land but couldn't  
close for it until they went back and  
repeatedly asked for the land again.

One land agent said that when they  
brought him land he would say, "I  
don't want to buy it."

One land agent said that when they  
brought him land he would say, "I  
don't want to buy it."

brought him land he would say, "I  
don't want to buy it."

**LETS STOP  
GROUCHING**

**SOME PERTINENT REMARKS AFFECTING  
RECENT ACCIDENT IN MINE.**

**IT HURTS THE TOWN**

Report from Fernie that recent fire  
in mine was disastrous. Results of  
Grouching—Never Does Good and  
Always a Lot of Harm.

The incident of the cave in in the  
main entry of the mine last week has  
served to afford us—meaning the  
people of Frank generally—an ob-  
ject lesson in the need of being  
more careful before we are hurt. The cave  
occurred a week ago last Saturday  
night. Monday the town was in the  
dumps. Everybody was talking about  
the mine being closed down. Some said it would be a month and  
some went so far as to say they guessed  
the mine was done for and some  
one in town took the trouble to send  
the story to the daily papers on the  
outside. The result has been that at  
Lethbridge, Calgary and other  
points Frank has been given the worst  
kind of a black eye. At Lethbridge  
the last of the week the writer was  
kept busy denying a report which had  
gained currency there that the mine had  
shut down for good. What nonsense all this is in the light  
of what has actually happened. The  
cave has proven to have been a very  
small affair indeed. It has all been  
cleared up and the company is again  
hauling coal considerably less than  
two weeks from the time it happened.

The Pass was threatened seriously  
with a big circus Monday when for  
a little while the prospects looked  
good for a visit from what is prob-  
ably the biggest and best circus  
that comes to western Canada, the  
Norris and Rowe show. The man-  
agement did not like the idea of  
showing at Fernie on the lot that  
had been provided. Accordingly a  
man was sent here to see what could  
be done if a better site could not be  
secured in Fernie. Arrangements  
were practically completed when a  
wire was received that the Norris  
and Rowe had provided a suitable lot.  
The district looked so good to the  
agent sent here, G. Henry, that both  
he and his manager gave assurance  
the show would stay either here or at  
Blairmore next year. Several Frank  
people went to Fernie to see the  
show and were well repaid for

## SHERMAN MAY STEP OUT

The rumor has been heard on the street a number of times lately that Frank H. Sherman, district president of the United Mine Workers of America, contemplates resigning his position, possibly in the near future. Whether there is any truth in the report is difficult to say as Mr. Sherman has made no statement on the subject. Peter Patterson, international board member, is spoken of as his successor. Mr. Patterson has said he would not take the office. The rumor does not give Mr. Sherman's reasons.

## NOTICE

Notice is hereby given that in accordance with the provisions of the North West Irrigated Act, 1898, and amendments thereto, the undersigned have filed the memorial and plans required by Section 11 of the said Act, with the Commissioner of Irrigation, at Calgary.

The applicants apply for the right to divert sufficient water per second from Oldman River on the north east quarter of section 25, township 7, range 2, west of the 5th meridian, for other purposes, and for the right to construct the necessary works as shown by the memorial and plans filed to enable the water so diverted to be used for the said other purposes on the said north east quarter of section 25.

The following lands are also affected:
